Dear BDL Board of Trustees:

Please accept this as official notice of my resignation. As you might know, we have had several differences of opinion regarding my duties to my staff and my duties to the Board. This conflict has affected—for some—your trust in me as a Library Director. It was made clear to me during the Personnel Committee meeting, held on March 12, 2019, that the majority of the Board Trustees and I would not be able to resolve our differences. Therefore, I feel that resigning—while this action is done under protest—is the best option for the Board and for me. It is my professional opinion that this resignation is not the best option for staff.

I am planning for my last work day as Branch District Library Director to be March 29, 2019.

Sincerely,
