# Mrs. Davison

... a patient guide to students ...

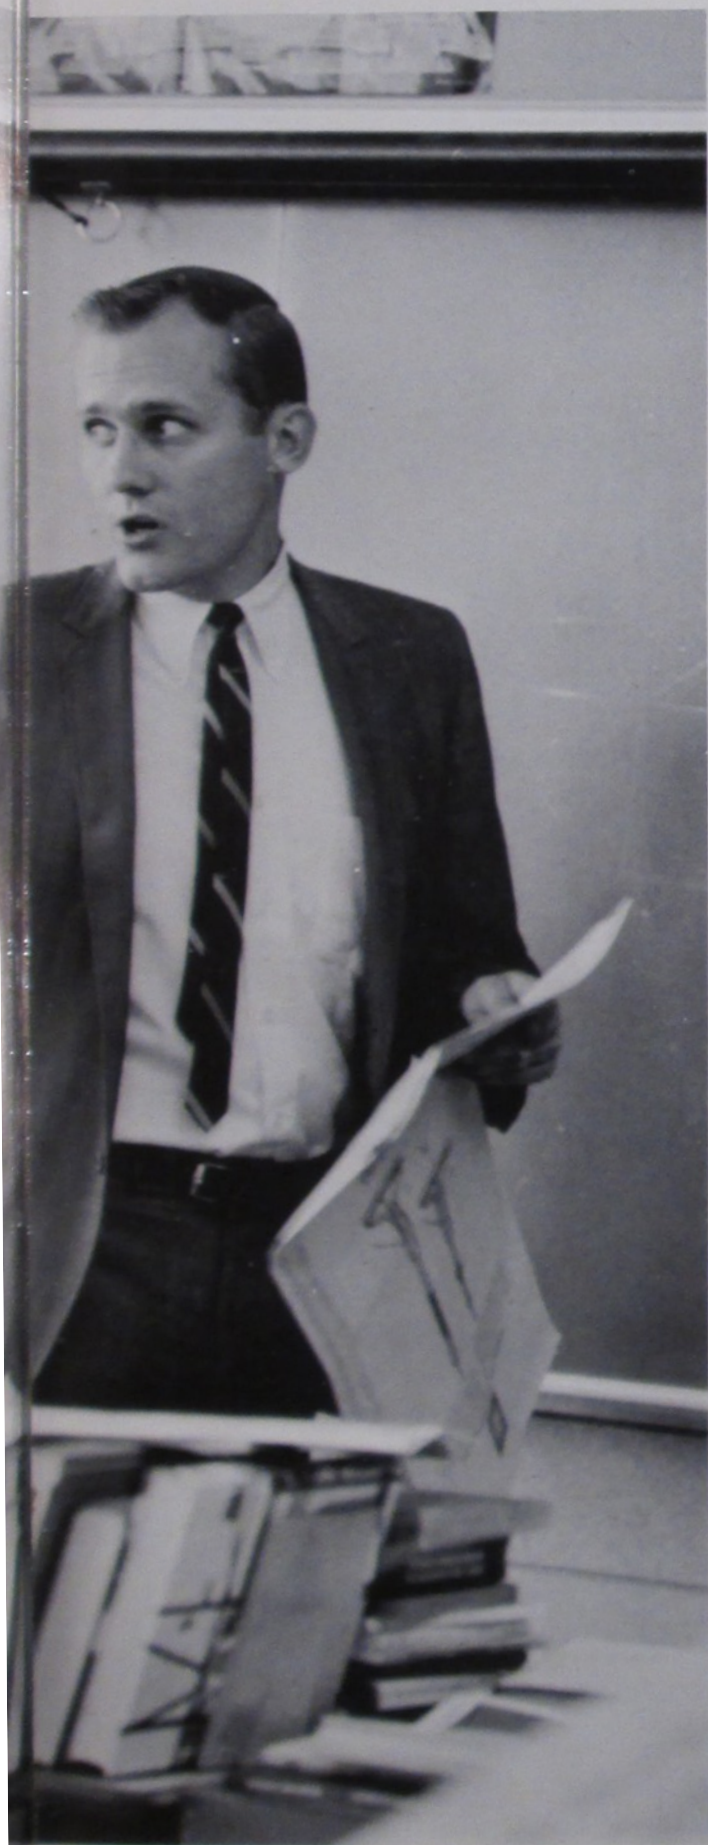

... a dedicated teacher for 23 years ...

## Ends Dedicated Career at UCHS

... a thoughtful considerate friend to all.

## Staff and Academics

As students enter UCHS for their first time, they are not exposed merely to the "Three R's," readin', writin', and 'rithmetic, but are offered a varied curriculum. In addition to courses in English, social studies, science and math, students may also take courses in such subjects as music, foreign languages, journalism, speech, art, homemaking, agriculture, and shop. The important thing for students to note is that the curriculum is varied enough to allow any student to find a subject he is interested in which he may use to prepare himself for the future.

Instructing these courses are the members of the faculty. Their purpose is not only to teach, but also to guide us — to help us prepare ourselves for the society that will greet us as graduating seniors.

The administrators of UCHS have the job of seeing that the school is well-run and well-organized. They also carry the great responsibility of trying to insure that each person who receives a diploma is prepared for the future and ready to step out on his own.

MR. JAMES SEALS, Union City High School principal.

Union City Community Schools experienced a change in administration with the arrival of Mr. Raymond Ross and Mr. James Seals.

Mr. Ross became superintendent, having been, as elementary principal, a part of Union City's school system. He obtained his B.A. degree and M.A. degree from Central Michigan University and is presently working on his Ed. S. at C.M.U.

Arriving from Cass City, Mr. Seals became the new high school principal. Like Mr. Ross, he is presently working on his Ed. S., having already received his B.A. degree from Eastern Michigan University, and his M.A. degree from Michigan State University.

## UCHS Operates

As secretary, Mrs. Hobday's jobs are many and varied.

MR. RAYMOND ROSS, superintendent of Union City Community Schools

## Under New Administration

Mrs. Mergl, bookkeeper, does much corresponding for Mr. Ross.

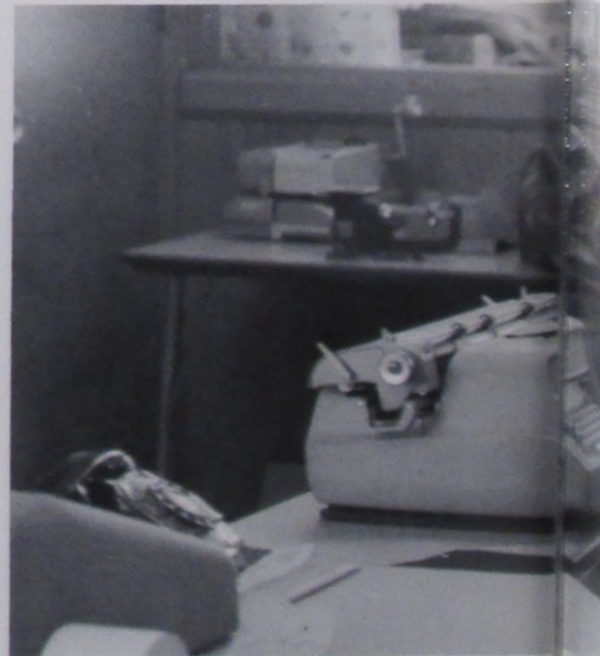

Proper scheduling is one of Mr. Ross' many important jobs as superintendent.

The superintendent's door is always open.

Mr. Ross,

UNION CITY BOARD OF EDUCATION: Harold Cline, Lillian Leitch, secretary; Kenneth Crane, John Brecheisen, president; Louis Carpenter, L. W. Case, vice-president; Don Tassie, treasurer.

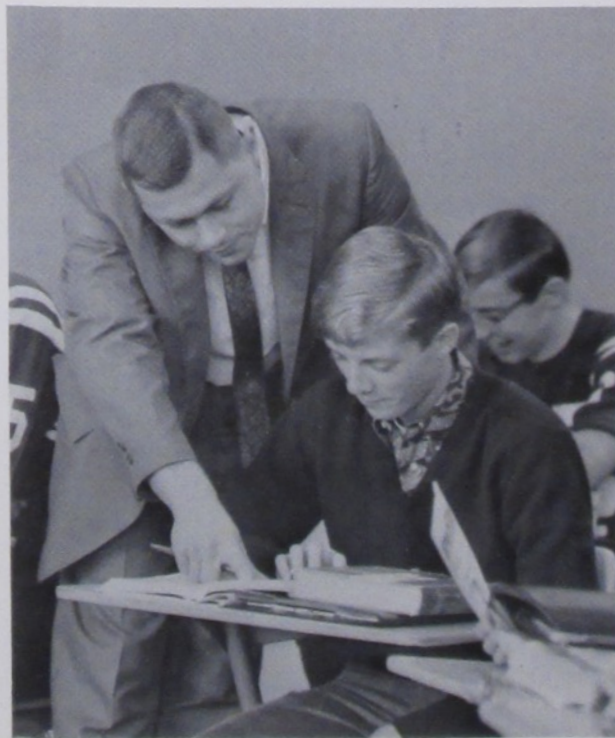

## Mr. Seals Are New Administrators

Although it may appear to be a position of leisure, being a high school principal is no easy job.

Mrs. Pendill has taught in Union City's school system for several years. In addition to instructing several classes of junior and senior English students, Mrs. Pendill also teaches American History.

During his first year at UCHS, Mr. Klunder spent most of his time teaching sophomore and junior English classes. He also taught Speech I, was the debate team advisor, and coached the junior varsity football team.

It's time-out during study hall for some deep thinking on that English assignment due tomorrow!

## English Is the Study of Our Language and Its Literature

Part of English is reading, and one of the best things to read is the "Maroon and Gray" newspaper, published by the journalism class.

Besides instructing two College English courses, Mrs. Smith also has several freshmen English classes. This is Mrs. Smith's first year back after a brief retirement.

## Social Studies Offer Knowledge of Past,

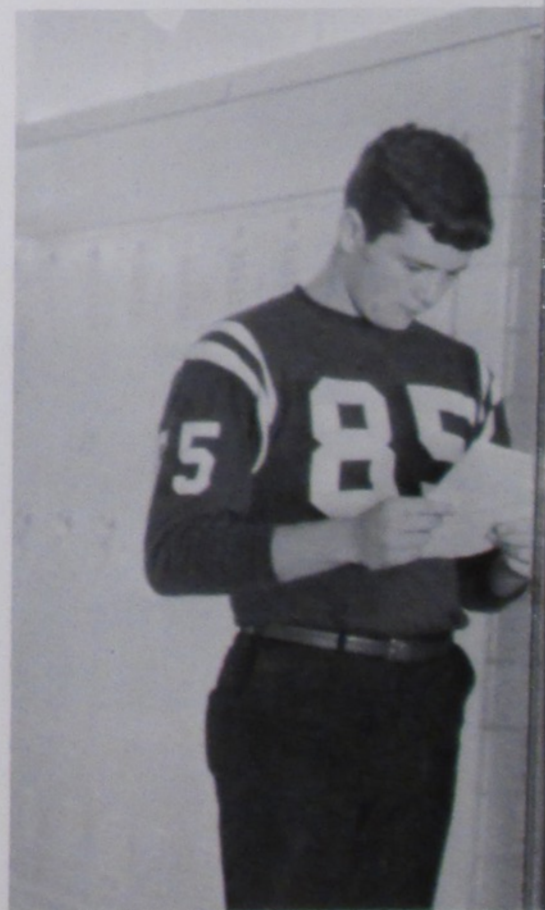

Government and physical education are Coach Kendziorski's specialties. He also coached varsity football and wrestling and also assisted in track.

Part of the process of learning involves working on your own. This may include displaying bulletin boards, such as Tom Case, Kim Bray, and Jeff Aldrich are pictured doing here.

Michigan Civics students spend a lot of their time learning about voting.

## Present, and Future

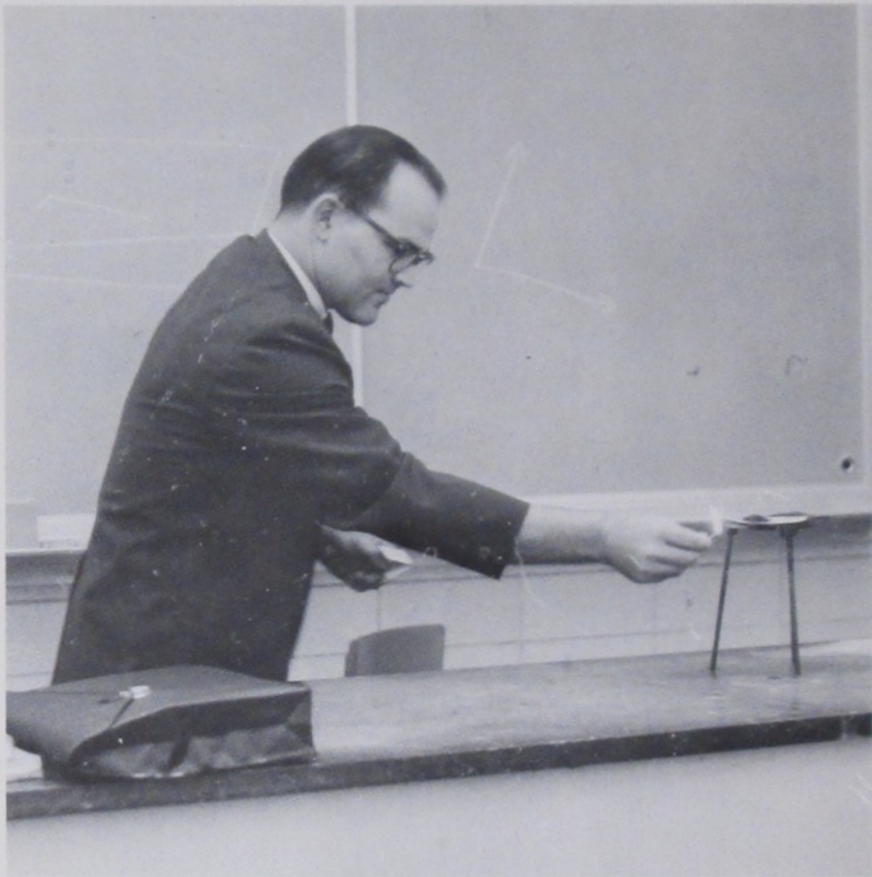

Mapwork is an important part of Michigan History. Meri Sue Badger explains to the class the area where the Potawatomi Indians once lived.

Mrs. Hooker teaches Michigan History and Civics, World History, and American History. She is also a counselor.

## Science, Math Require Concentration and

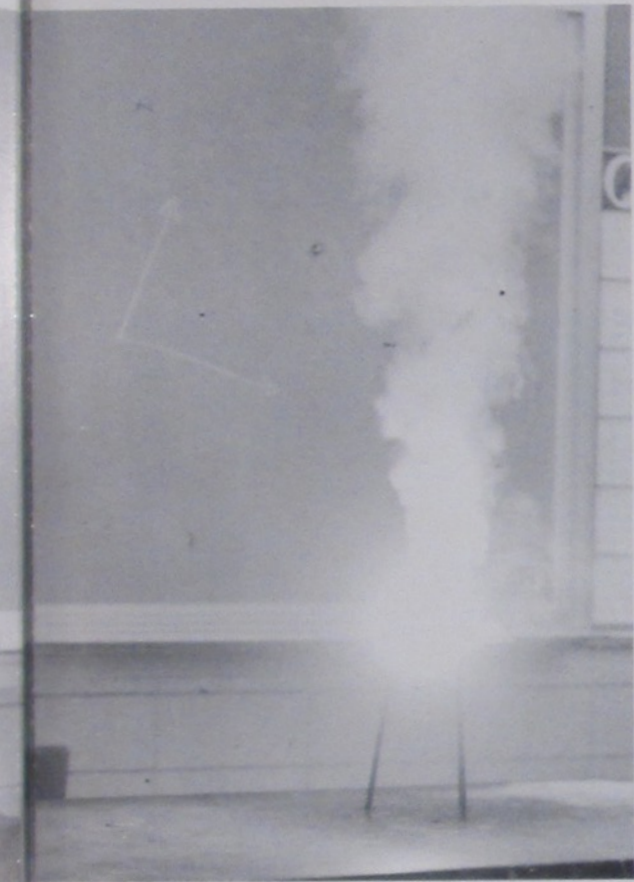

Freshmen boys in the agriculture class learn the scientific way to raise plants.

Mr. Bartlett, who has been on the UCHS faculty for several years, teaches biology, chemistry, and physics.

Mr. Rice demonstrates to his physical science class some of the properties of phosphorus. He also teaches geometry and senior math, coaches football, j.v. basketball, and track and is athletic director.

## Comprehension

Mr. Weirich explains the parts of a cow to students in one of his agriculture classes. He is also the F.F.A. advisor.

Carol Arey seems to enjoy having algebra problems explained to her, since the teacher is also her mother, Mrs. Arey.

## Business Education Students Develop

Donna Foster appears to be concentrating on her work as she operates the ditto machine.

## Business Skills

Timed writings are an important part of typing class. This class, along with bookkeeping, general business, and office practice taught by Mrs. Davison.

Students learn shorthand by practice, and in this case the practice is led by Mrs. Kendziorski. Typing II, business math, law, and one class of English are taught by Mrs. Kendziorski. She is also a guidance counselor, and F.T.A. advisor.

Individual practice and individual help from the teacher are very important parts of mastering skills in the business education courses.

## Band, Choir Offer Musical Experience

A band just isn't complete without a bass!

As in previous years, the band performed at Homecoming, forming the traditional heart to the tune of "Let Me Call You Sweetheart."

Choir members not only learn how to sing well, but learn the fun that music experience offers.

Miss Pedro directs the junior and senior high school choirs. She is also the elementary music teacher and advisor to the cheerleaders.

In addition to directing the Senior Band and B Band, Mr. Clayton directs two bands in the junior high school and the "Maroons of Note."

Miss Steffaniak spends her time teaching students how to pronounce "parlez-vous" and "amō, amās, amat." She teaches Latin I and II and French I and II.

In learning to speak a foreign language, the students practice pronouncing each work carefully.

## Foreign Language and Art Are Cultural Subjects

Miss Williams, experiencing her first year on the UCHS faculty, instructs Art I and II and is advisor to the Art Club.

Jim Fisher appears to enjoy painting, although it involves a lot of concentration.

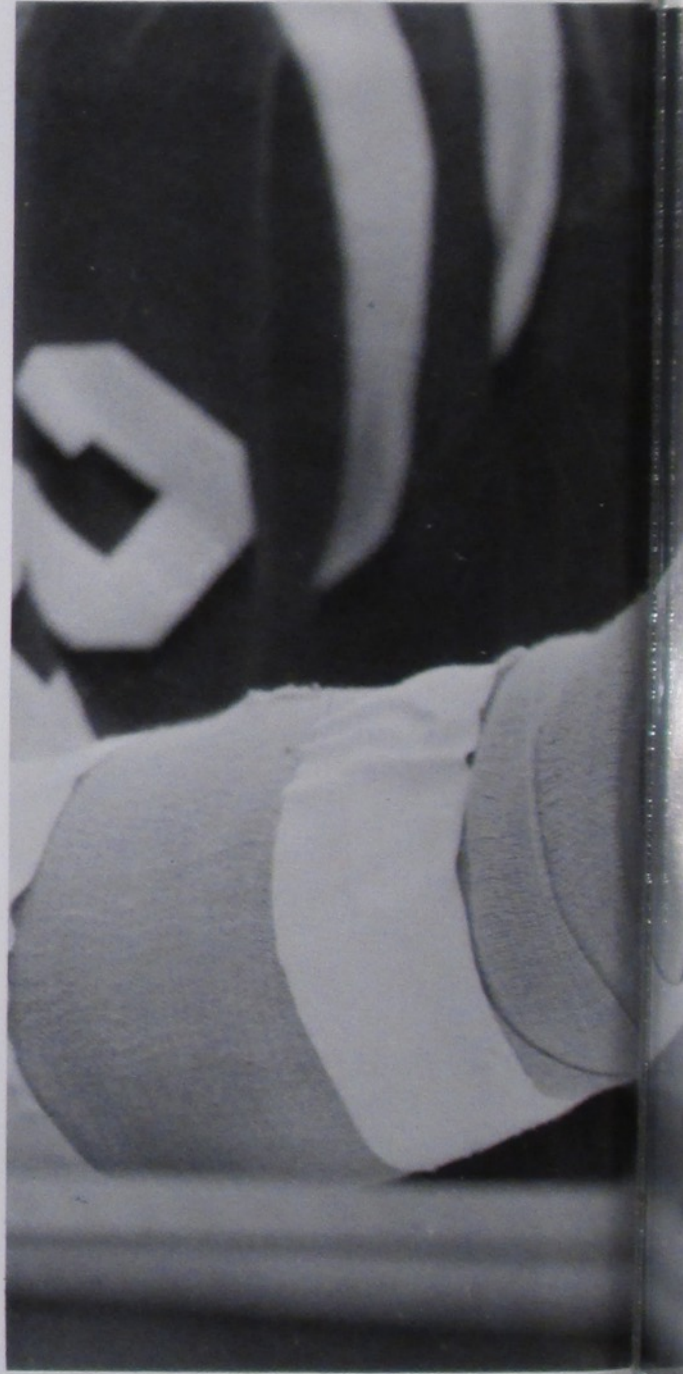

Mrs. Rhymer, a new addition to the UCHS faculty, instructs classes in Home Economics and Family Living, and is also advisor to the Future Homemakers Club of America.

Mr. Milligan teaches several various classes in the Industrial Arts, such as beginning shop, woodshop, and advanced shop. He also instructs mechanical drawing.

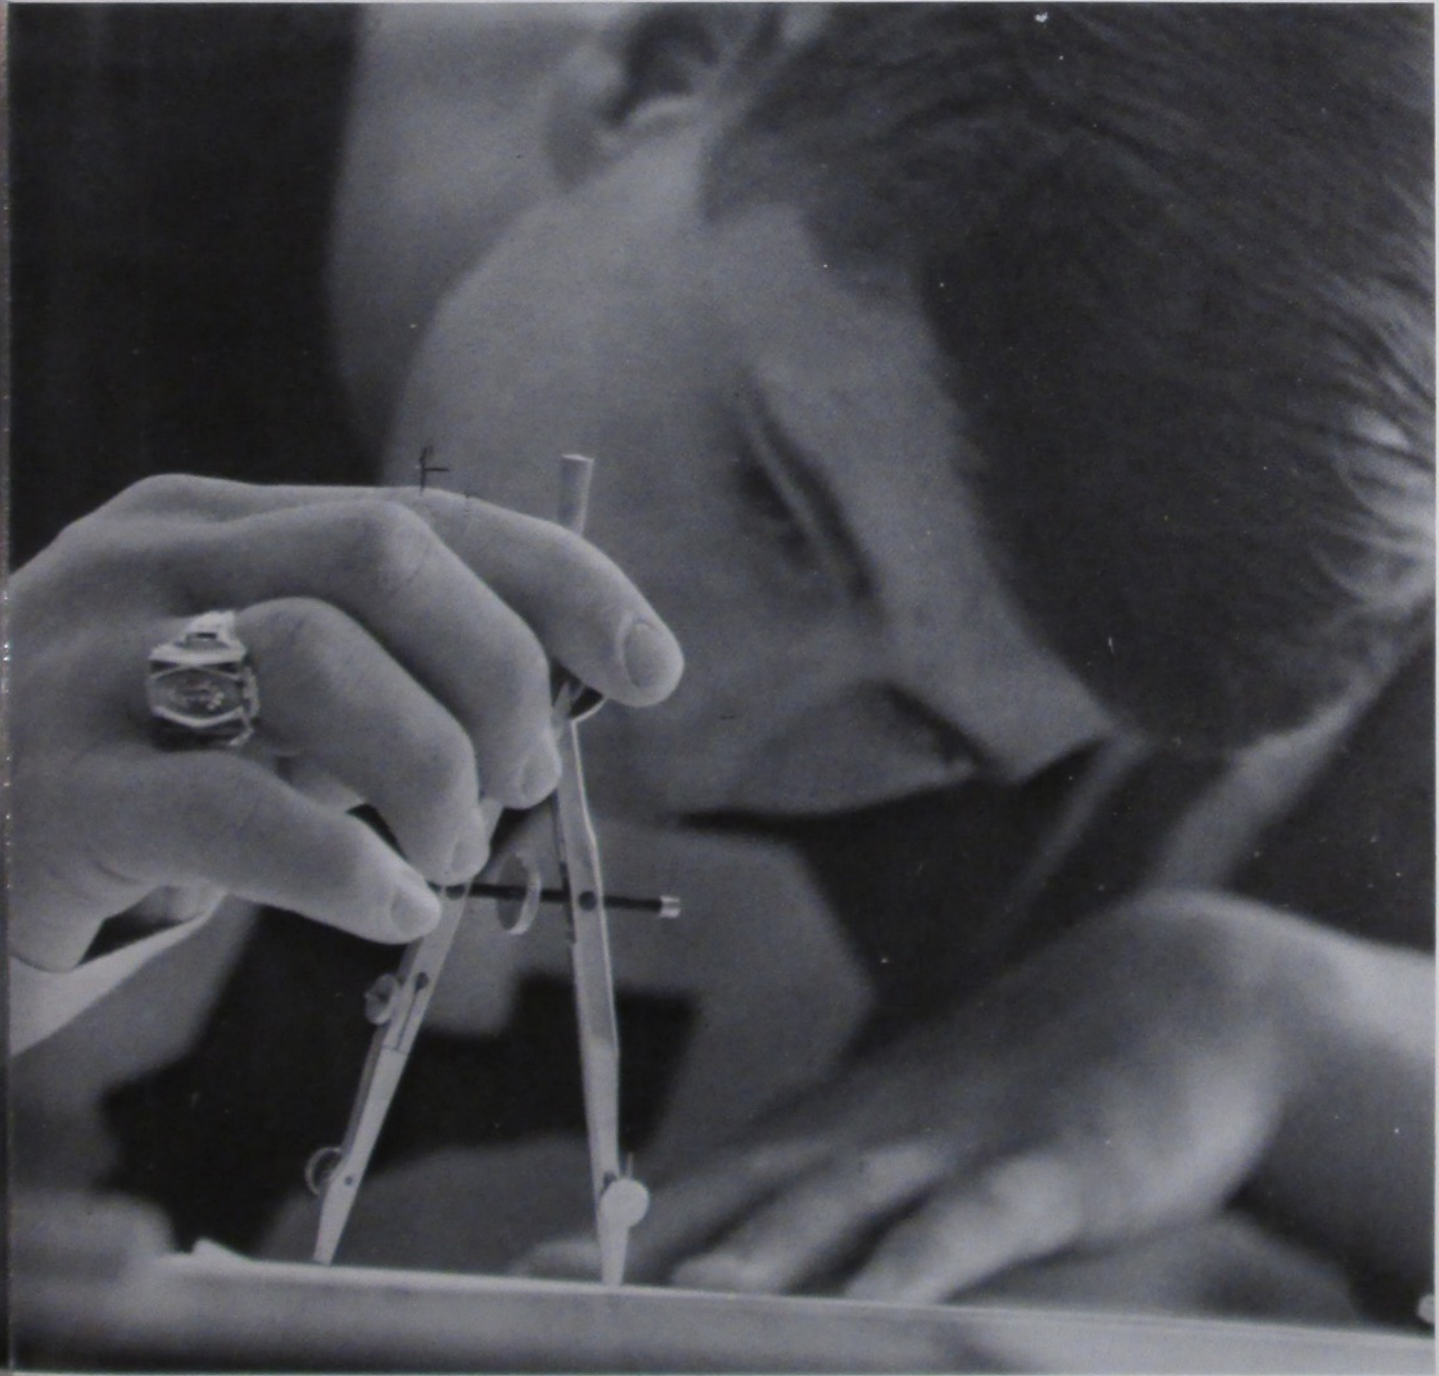

## Home Economics

Being accurate and precise is an important part of mechanical drawing as Jim Musolf illustrates above.

and Shop: Preparation for the Future

Mrs. Warke helps a freshman plan his high school subjects and explains graduation requirements.

The counseling office has a wide selection of catalogues for prospective college students.

The library is filled to the brim with interesting books, but sometimes you have to reach for them.

Mrs. Evert serves UCHS as the librarian. Among her duties are ordering books and organizing the library and magazine room. She is also advisor for the Library Club.

## Librarian, Counselors Aid Students

As guidance counselor, Mrs. Warke's jobs are many, and bring her into close contact with the students. She is advisor for the Health Careers Club and the National Honor Society.

Coach Kendziorski demonstrates the proper technique of kicking the soccer ball.

Mrs. Seals is a new addition to the faculty this year. She taught three girls' physical education classes,

## Physical

The girls learned the rules of soccer and spent much time out-of-doors practicing.

## Education Develops Physical Fitness

Clarence Rollins and Cloyde Funk serve as custodians.

Student help is a valuable asset to the kitchen staff.

Preparing school lunches each day is the duty of Mrs. Matson and Mrs. Heisler.

Mrs. Fisher, as dietician, plans and helps prepare the school lunches.

## Organizations

Organizations are important to school life. Not only do they offer a variation in the everyday routine, but they are also an excellent opportunity for students to further their knowledge in specific areas. Organizations offer students an opportunity to work with others and to learn the true meaning of cooperation and contribution.

There are many organizations in which students may participate. Among them are Student Council, Pep Club, band, debate, and Future Farmers of America. All of these serve one common purpose — for students to get to know one another, to work together, to learn.

The Council made more profit on concession stands this year than in the past several years. The members operated the stand on the athletic field and the one in the cafeteria.

These were Union City's debaters — the four students who took first place in district and regional competition, and completed their season when they captured fifth place in the state competition.

Like all debaters, Carol Warkoczeski and Helen Doane spent many hours in the library doing research on the debate topic.

## “Maroon Memories” Undergoes Many New Changes

As sports editor, Eric Tundevold soon learned that there is more work to the job than there appeared to be.

Learning the techniques of planning a good yearbook are some of the things Klaudia Coats learned as assistant editor.

## ATHLETICS

Athletics are as important to the physical well-being of students as academics are to their mental well-being. At UCHS, boys are offered a wide selection of sports. Football begins in the fall and is followed by basketball and wrestling in November. With the arrival of spring, training for track and baseball begin.

Athletics serve another purpose, also. They teach spectators that every game cannot be a victory, that every participant cannot be a star. However, spectators also experience the pleasure of supporting a winning team. Sports also teach the participants some important things. The boys learn what it means to use all of their strength in trying to win, and then have to still try harder. They learn the meaning of cooperation, teamwork, and all-out effort. One other thing the boys learn is what a good feeling it is to have the coach tell the team that they played a good game.

## Ranked 4th in State

The 1966 Maroon varsity football squad completed the most successful season in the history of UCHS by compiling a perfect 8-0 record and outscoring their opponents 334-6. This unblemished record gave the Maroons the conference championship, a no. 2 ranking in the area for class C schools, and a no. 4 statewide ranking in class C.

Highlights of the season were a 26-6 win over highly-ranked Quincy, a 35-0 pounding of Bronson, and a tough 32-0 victory over arch-rival Athens.

To cap an extremely fine season, ten members of the squad were given mention on the all-conference team. Ron Brewer was named as honorary captain of this team.

Dave Brandt heads for the end zone as Jeff Aldrich throws a key block.

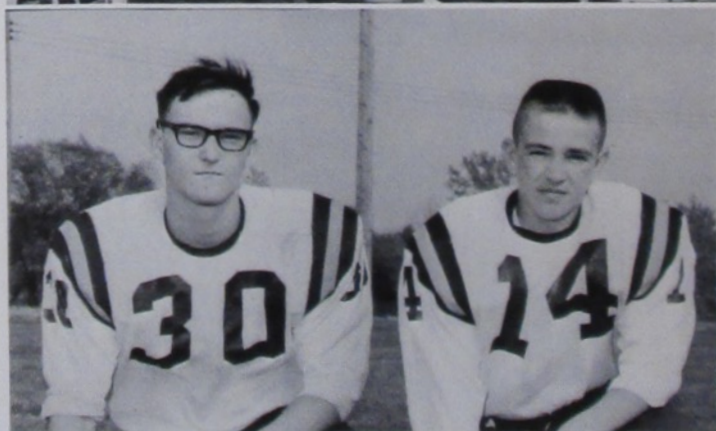

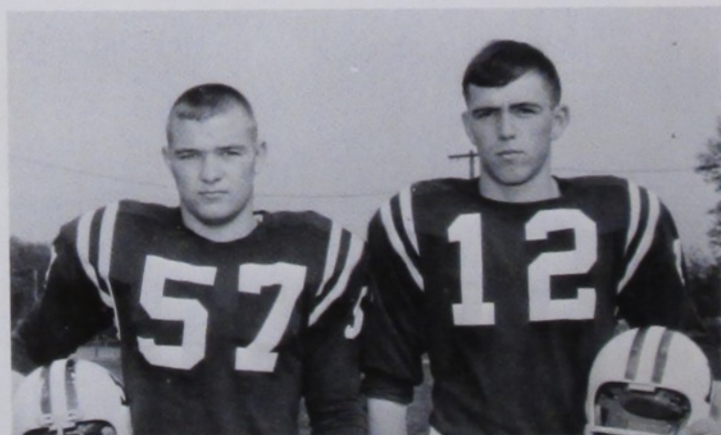

UC's power runners, Dick Watkins, Jim Musolff, and Doug Miller, hit for the extra yardage that makes the difference.

# Athletic Year

Although losing ace pitcher, Dick Watkins, because of a shoulder injury, the varsity baseball team nevertheless put together a respectable season, winning 5 games while losing 4. Their conference record of 3 wins and 4 losses gave the Maroons a tie for fourth place, enabling them to pick up enough points to capture the all-sports trophy.

Eric Tundevold capably handled the majority of the pitching chores while Dave Mack and Doug Miller led the Maroon hitters.

As catcher, Dave Mack was voted the team's Most Valuable Player.

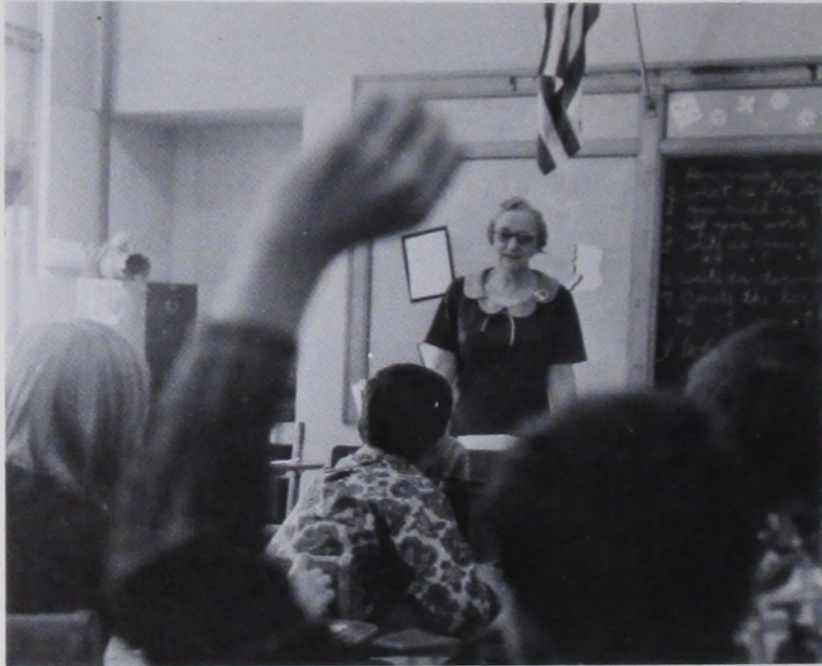

Co-captain Larry Cuyler, UC's leading fielder, tags the runner at second.

Ron Olds, mainstay of the outfield, gets ready to fire a strike to second.

## JUNIOR HIGH STUDENT LIFE

Just as student life is important in the senior high school, it is also important to junior high students. They may participate in activities such as basketball and band, both of which prepare them for future endeavors in high school. Also on the list of activities are class parties.

All of these activities are important because they teach the students some valuable things. When planning their class party, they learn what planning, organization, cooperation, and effort are. When they are on the basketball floor, they learn what it means to try their hardest, and the thrill of winning. In class elections, they realize what competition is, and that only one person can be a winner.

Junior high is a time when students, whether knowingly or not, prepare themselves for senior high school. The jump from elementary school to junior high school may seem big, but the jump from there to senior high school is even bigger.

## Junior High: A Time of Changes

One of Mr. Fulton's many jobs as junior high principal is helping students with student council activities.

Although Mrs. Philson is officially known as the junior high secretary, she is also nurse, counselor, and "probemsolver."

Mrs. Brisbane spends her mornings as the junior high school librarian.

## SENIOR HIGH STUDENT LIFE

The student life at UCHS has many phases. In addition to the numerous classroom activities, there are many extracurricular organizations and functions which serve as a break in the daily pattern of school life. The all-school play, magazine sales, Sno-Ball, graduation, and many others offer a needed variation in school life. These activities are also a chance for students to have a good time, to work with a goal in mind, to excel. The activities also offer memories — memories that are not soon to be forgotten.

Student life centers around students. Freshmen become accustomed to the changes that high school brings, and sophomores spend their time and energy on the Sno-Ball. Juniors are preoccupied with the magazine sales, class rings, the prom and the junior-senior banquet. As seniors, students have several things to think about — pictures, senior trip, graduation.

At the close of each year, students may look back upon the past year and remember the many things that happened to make the school year more meaningful, interesting, and fun. These things are student life.

The 1967 Sno-Ball Court: Dennis Spooner, Vicki Hoenes, Princess Mary Lou Knapp, Prince Lee Tundevold, Micki Smith, Tim Kever.

Neither rain, nor sleet, nor even one of the worst snowstorms in Michigan's history could prevent the Sophomore Class from presenting "The Enchanted Evening," the 1967 Sno-Ball, on January 28. The Sophomores, under the supervision of their advisors Mr. Klunder, Mrs. Kendziorski, Mrs. Pendill, and Mr. Bartlett, and their president, Micki Smith, planned and presented this annual event. During the dance, the Prince and Princess were announced, and a very happy and excited Mary Lou Knapp and Lee Tundevold took their seats on the royal throne. Presenting the traditional roses and the crown were Kara Smith and Brian Hasty.

Mary Lou Knapp receives her royal crown from Merrilee Wagaman, last year's choice as Sno-Ball Princess.

## Appendix

Without community-wide support, the yearbook staff could never accomplish its desires and objectives. However, the community not only supports the yearbook, but also the entire school. Who is it that makes up a large percentage of the spectators at athletic events? Who is it that honors athletes and scholars at a banquet? Who is it that helps out various groups when they are in need of help?

Union City, as a community, seems always willing to take an interest, lend a helping hand, and offer support. Such support should be given to a school that is worthy and deserving — and, indeed, isn't UCHS?
