COLDWATER PUBLIC LIBRARY:

PREFACE.

IN Presenting to the citizens of Coldwater, Union City, Quincy and Bronson their City and Village Directory, we congratulate them on the apparent prosperity of their respective places. Our aim has been to give a reliable Directory of each person in their various places of business and residences. We found some little difficulty at the residences in getting at all times reliable information, but with our experience in the business managed to try and procure the correct matter sought for. We tender our sincere thanks to the business and professional men for their liberal patronage; also, to Messrs. A. J. Aldrich & Co., and to their foreman, Mr. J. W. Horton, for the great care and accuracy they have bestowed in the printing of the work. Mr. Henry Blackaller has had entire control of collecting the advertisements for the work. He has done his work faithfully and well. His well-known business experience and ability has insured his success, and the placing of the advertisements as near as possible to their names is a new feature that we think the merchants and professional men will fully appreciate.

DAVID TRUMP.

MANUFACTURER OF

Stock and Portable Tanks, the Granger Churn and Washing Machines.

THE GRANGER CHURN.

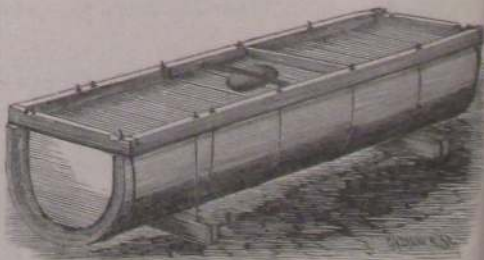

700 OF THESE CHURNS
NOW IN USE!

Some of the advantages possessed by this Machine over any and all others:

- 1st. It is made of the best material obtainable, and in a durable manner. It is a Crank Churn, without any noisy machinery, and the fan, or dash, are so constructed as to keep all the cream in motion.
- 2d. It makes the best of butter.
- 3d. It has a Cooler Attachment, by which the cream may be kept at a proper temperature during churning.
- 4th. The fan, or dash, is so constructed as to make it a perfect butter gatherer—which makes it the best Churn made.

I also manufacture a Superior Water Tank, used with the Portable Engines, which are considered by many threshing machine men to be the best tank for that purpose ever invented. Also STOCK TROUGHES and TANKS of different sizes, from a barrel up to 20 barrels' capacity.

My GRANGER WASHING MACHINE I sell on its own merits. Come to my place of business and get one and try it, and convince yourselves of its usefulness. Address all orders to
