Subject (Optional): Penal Fines

I just located and read John Rucker's very interesting and informative article about the Library's financial situation. But, I still do not understand "why" the collection for penal fines has dropped precipitously in recent years. The court system is as busy as ever! What is the reason for the reduced penal fine income flow??? Has there been a deterioration in the formerly cooperative and supportive relationship with the local courts?

Let us know what you think? This changing
of the library is not being
cost efficient. When you are
complaining of lack of funds
what a waste of energy
and man power
